**FOR SALE**

**2002 Aqua Miser**

**Carolina Equipment built Sand Intrusion Ultra High Pressure Water Jetting Pump**

- The Aqua Miser **ULTRA BOSS** combines 40,000 psi water blasting and the patented B.O.S.S.® abrasive injection technology. The system pressure feeds any abrasive media to achieve a multitude of blasting specifications. Achieve a white metal finish, profile new steel, prepare concrete, or simply degrease and clean.
  - With a built in air supply for abrasive feed and rotary head stripping gun, there is no need for additional air and it can even act as a supply to other equipment.
  - The pump and motor are only fully engaged when the trigger is pulled. This uses less electricity, causes less wear and tear, and eliminates expensive tumble boxes, dump valves and un-loaders.
  - The pump provides ultra high pressure (up to 40,000 psi) while using a low volume of water (3 gpm). This means less operator fatigue, less water to contain and dispose, and less inlet water required (just a garden hose for feed water)
- 115 HP John Deere Diesel Engine
  - System Gauge Panel
  - 50 gallon Water tank
  - 3 stage filter system
  - 3.5 cubic feet abrasive pot
  - On board compressor
  - 1 Vulcan rotary lance with 100' high pressure hose
  - Trailer with electric brakes

VIN#

4C9BH16236N092001

Model #

D115J20012.
