LETTER OF RECOMMENDATION

To Whom It May Concern:

F & M Installations Ltd. worked with KPC Coatings during the BC Hydro Ladore & Strathcona Spillway Gates Refurbishment project in 2007.

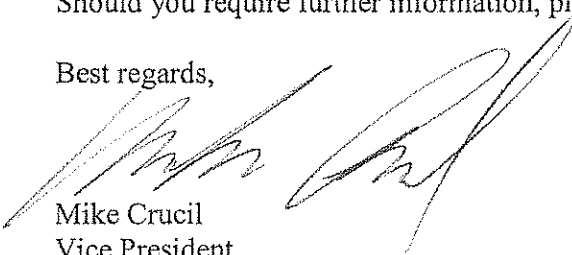

KPC Coating carried out the Coatings scope of work on the roller paths, rollers, gate surface refinishing and structure touch-up.

They completed all tasks without any safety issues or any environmental incidents in the extreme environmental conditions.

F & M Installations Ltd. will not hesitate to utilize KPC Coating's services for future projects and highly recommends them to other companies.

Should you require further information, please do not hesitate to contact the under-signed.

Best regards,

Mike Crucil
Vice President
