---

Dear Cliff,

We look forward to working with you and your crew again this coming year.

Over the past years, we have, as you are aware, asked KPC to respond to our schedule on very short notice. Your co-operation and response is greatly appreciated.

The KPC Coatings Ltd. approach to quality workmanship is a contributing factor to a satisfactory job. Our client, BC Hydro, feels assured that they are getting a quality product upon completion.

Your crew as well as Darren Ponte, work in close harmony with other trades and have overcome many difficulties with ease, and have always managed to complete the tasks on or ahead of schedule

Thank you for your continued efforts.

Regards,

  
Steve Jarvis  
Site manager  
On behalf of General Electric Canada
