Message

We are writing to confirm our satisfaction with efforts by you and your crew in completion of the above Project. In addition to the immediate task of preparing and painting zinga coatings along the bridge rail, we note that KPC Coatings Ltd. communicated effectively with City's Environmental Liasion Officer to address concerns of MoE and DFO in advance of the work and undertook various measures to ensure that work proceeded safely and efficiently in close proximity to pedestrian, bicycle and other pathway users while working within the relatively narrow multi-use pathway. We note that KPC Coatings Ltd. responded effectively to changing conditions altering hours of work to suit weather and other conditions encountered on site. We appreciate KPC Coatings Ltd.'s professionalism and attention to detail which permitted this Project to be completed ahead of schedule.

Should you require additional information, please contact the undersigned directly.

Signed: Andrew D. Watson, P. Eng.
