Attention: Cliff Harper

Subject: Headgate and Spillway Gate Corrosion Control

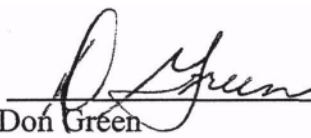

Dear Mr. Harper,

On behalf of West Kootenay Power Generation, and the members of our crew that worked along side of your people, I would like to thank you and your crew for the dedicated work on our corrosion control project.

Your ability to meet West Kootenay Power's needs around the Collective Agreement, and your effective adaptation of your Safety Procedures to meet specific West Kootenay Power Safety requirements was both timely and cost effective. Even with these complications at the start of the project Kootenay Powder Coating was able to complete the work on budget and ahead of schedule.

Congratulations, and we look forward to working with Kootenay Powder Coatings on future projects.

Best Regards,  
West Kootenay Power Generation
