ROLE AT CCS

Mr. Neil Van Asperen joined CCS in 2005 with 10 years of experience in the coatings industry. He prides himself with a background of leadership and the coordination of projects within the power generation and oil and gas industries. Neil's expertise in these markets has enabled CCS to expand our service offerings to new territories throughout Western Canada.

Neil's commitment to CCS and our clients has proven to be rewarding for all, as we have received many testimonials of his excellent customer service and the tremendous hard work from his crews. CCS looks forward to the continued success of Neil's leadership in the years to come.
