Peter Kiewit Sons Co. Ltd.

"They have adhered to all appropriate safety standards whether 100 feet up on a swing stage or crawling into confined spaces. Their combination of experience and innovative thinking quickly resolved any problematic or challenging situations."

Greg Dixon, P. Eng. Project Manager

KNOWLEDGE

In order to achieve and hold the senior market share position Certified Coating Specialists maintains today, CCS has invested unprecedented dollars, for our trade, in management education enhancement, and worker training. The knowledge level the CCS team now presents as foundation to continuously build upon is further supported by CCS Directorship enthusiastically re-investing profits in the company and eager to acquire new technology and equipment to enable employees to proudly support CCS Mission and Ethics policies. Positive attitude, honorable presentation, eagerness to learn and personnel training; knowledge.

BC Hydro

"Certified Coating Specialists Inc. did an exceptional job. The work was carried out in a very professional manner, addressing all safety and environmental issues."

David R.H. Smith, Civil Technologist

West Kootenay Power

"They have adhered to all appropriate safety standards whether 100 feet up on a swing stage or crawling into confined spaces. Their combination of experience and innovative thinking quickly resolved any problematic or challenging situations."

Don Green, Project Manager

Cost effective delivery of services mitigating risk and ensuring realizable value for our customers.

eration

EXPERIENCE

Through the new millennium, Certified Coating Specialists Inc. has provided services to more Power Generation Facilities in British Columbia than all other industrial paint contractors in BC combined.

GE Hydro

"Your crew, as well as Darren, work in close harmony with other trades and have overcome many difficulties with ease, always managing to complete tasks on or ahead of schedule."

Steve Jarvis, Site Manager

Alstom Canada

"Certified Coatings Specialists Inc. succeeded in executing a professional job in a short period of time."

Hermann Ouellet, Site Supervisor

COST SAVINGS

Working with a company constructed on the principles of which CCS has been there is a substantive opportunity for power generators to save money by involving CCS in the planning stages of a project, in the development of scope of work, in minimization, if not outright **elimination of project risks.**

At Certified Coating Specialists we are a phone call and a hand shake away,
from assisting you whenever called on to do so.
